

Vol.43, Issue 1, 2009

M.Sh. Mamatov

To the theory of differential games of pursuing in the systems with distributed parameters, pp.5-14.

A.S. Rybakov

**An estimation of the time location of the pulse signal center
from small sampling numbers for precision event timing, pp.15-25.**

E. Beiners and K.Kruminsh

Simulation and calculation of a balanced tunnel diode comparator, pp.26-33.

J. J. Medel J, J. C. Garcia I. and P. Guevara L.

Real-time neuro-fuzzy digital filtering: A technical scheme, pp.34-45.

S. Jakovlev and A. Borisov

Application of Jordan recurrence principle in Rosenblatt's perceptron, pp.46-55.

A. Ipatovs and E. Petersons

Real data transmission speed and signal/noise ratio in the wireless network with mobile objects, pp.56-65.

V.I. Popov

Determination of zone of radiosignals reliable receiving into cellular in urban area, pp. 66-70.

A.B. Glaz and V.V. Smolyaninov

On one method to improve videoimage quality, pp.71-80.
