

Vol.43, Issue 3, 2009

S.A. Dudin and V.I. Klimenok

Queueing system with phase type process of customers arrival in sessions, pp.5-17.

V.N. Boicov

Heterogeneous factors in stochastic queueing systems, pp.18-24.

G.A. Rustamov, Y.Q. Hasanov and R.G. Rustamov

New strategy finites of management with variable structure for adjustable objects with delay, pp.25-35.

R. Yeryomin and E. Petersons

**Nonequilibrium process research of relaxation time
under the condition of self-similar traffic input in wireless networks, pp.36-46.**

K.R. Ayda-zade and Y.R. Ashrafova

**Control by systems with concentrated parameters
on special classes of control functions, pp.47-56.**

T.A. Aliev, Q.A. Quliyev, A.H. Rzayev, F.H. Pashayev and A.M. Abbasov

**Positionally-binary and spectral indicators of microchanges in technical conditions of objects of the control,
pp.57-69.**

D.V. Speranskiy

Synchronization of non-stationary linear automats in a phase space of generalized states, pp.70-80.
