

Vol.43, Issue 4, 2009

S.V. Yarmolik and V.N. Yarmolik

Multi-signatures transparent memory testing, pp.5-13.

Z.A. Kolodiy and A.Z. Kolodiy

Calculation of noise level of electronic technique elements, pp.14-20.

V.O. Vasyukevich

Analytics of trigger functions, pp.21-29.

T.I. Nasirova and R.I. Sadiqova

The Laplas transforming of the length distribution of staying of process in the given strip, pp.30-36.

A.A. Pchelkin and A.N. Borisov

Sensitivity investigation for a neural network implementing the principal component analysis technique, pp.37-47.

P.S. Heydarov

Neural network based on the method of standard, pp.48-57.

A. Asars and E. Petersons

Determination of the optimal interval of identifying parameters of self-similar flow, pp.58-65.

R. Parts and A.Ipatovs

Estimation of efficiency of asymmetric digital technology for abonents (ADSL), pp.66-79.
