

Vol.43, Issue 5, 2009

V Karklinsh and K. Kruminsh.

Comparison of methods of signal detection at digital stroboscopic conversion, pp.5-13.

M.A. Gladshtein.

Algorithmic synthesis of a combinational adder of decimal digits encoded by the Johnson-Mobius code, pp.14-23.

A. Asars M. Kulikovs and E. Petersons.

Optimization of buffer memory volume and transmission capability of the output channel in MBAC system, pp.24-31.

A.N. Dudin and B. Sun.

Multi-server queueing system MAP/PH/N with controllable broadcasting service by unreliable servers, pp.32-44.

V.A. Nikolsky, B.Ya. Tsilker and V.P. Pyatkov.

Synthesis of combined control follow-up systems, functionings under regular chaos conditions, pp.45-52.

R.A. Yunusmetov.

Mathematical model of search system observation with structure groups, pp.53-62.

Y. Imamverdiyev, L. Kerimova and V. Musayev.

Fingerprint liveness detection method based on Radon transform, pp.63-71.

R.M. Aliguliyev.

Two staged unsupervised approach to multidocument summarization, pp.72-82.
