

**Vol.43, Issue 6, 2009**

O.S. Taramin and V.I. Klimenok.

**Two-stage queueing model with the threshold strategy of callbacks, pp.5-17.**

*S.A. Dudin and A.V. Babitski.*

**Two-stage queueing model with admission control and two correlated arrival processes, pp.18-27.**

*V.N. Boicov.*

**The research of possible errors in replacement models  
for queueing systems with heterogeneous requests, pp.28-35.**

*A.M. Abbasov, I.M. Aliyev and L.H. Kerimova.*

**On a model of data centers location with an allowance for risks, pp.36-46.**

*K. Kazlauskas, J. Kazlauskas and G. Petreikyte.*

**Comparative analysis of power spectrum estimation methods, pp.47-60.**

*H. Ding, Zh-M. Tang, L-H. Wei and Y-P. Li*

**A study on speaker identification based on weighted LS-SVM, pp.61-70.**

*G.A. Rustamov, A.T. Abdullaeva and I.A. Yelciyev.*

**The organization of sliding movement in systems of stabilization  
on the basis of the method of Lyapunov function, pp.71-79.**
