

Vol.45, Issue 4, 2011

A.M. Andronov, I.B. Gerzbah and I. Shpungin

About one application Signatures (D-spectra) to the analysis of the one-linear system of service, pp.5-17.

Ya.A. Sharifov

Necessary optimality conditions in classical sense in the discrete optimal control problems with nonlocal conditions, pp.18-28.

V.N. Boicov

Probability distribution functions requests of two types of services, pp.29-35.

D.Ya. Novikov and L.D. Cheremisinova

SAT-based implementation checking of logical descriptions with functional indeterminacy, pp.36-48.

M. Greitans, V. Aristov and E. Hermanis

Control of amplitude-frequency band oscilloscope and signal-converters, pp.49-54.

A.Yu. Perevaryukha

Hybrid models of natural resources dynamics: stable point, stable cycle and transient chaos, pp.55-68.

D.V. Speranskiy

About compression of diagnostic information, pp. 69-78.
